FOR IMMEDIATE RELEASE

ACS Honors 2008 ACS MIDAS+ Platinum Quality Award Winners for Excellence in Clinical Performance

DALLAS, TEXAS: June 3, 2009 – [Affiliated Computer Services, Inc.](#) (NYSE: ACS) today announced the winners of the 2008 ACS MIDAS+ Platinum Quality Awards, which recognize excellence in clinical healthcare.

The 28 hospitals/medical facilities were honored for their achievement in the areas of quality outcomes, care efficiency and consistent delivery of evidence-based best practices in nursing and medicine. The winning organizations were selected based upon comparative performance of more than 550 hospitals that use the MIDAS+ [Comparative Performance Measurement System \(CPMS\)](#) for tracking facility performance, or MIDAS+ [DataVision solutions](#), a data management system. The second annual awards were presented at the 18th Annual MIDAS+ User Symposium in Tucson, Arizona.

“These respected client organizations, which have selected ACS as their technology partner, have excelled in their clinical performance as a result of using our products to improve the delivery of healthcare for patients in their facilities,” said Jim DeWeese, senior vice president, ACS MIDAS+.

MIDAS+ CPMS is one of the nation's largest vendors for the National Hospital Quality Improvement Measures, which are submitted to [The Joint Commission](#) and [Centers for Medicare and Medicaid Services](#) in support of hospital public reporting requirements. MIDAS+ DataVision is a powerful comparative data analysis tool that provides chief medical officers, case managers and other clinical and administrative leaders with the tools they need to improve outcomes, patient safety and the efficiency of care delivery within hospitals. Both products are used in conjunction with the MIDAS+ [Care Management](#) system, the nation's premier integrated case, quality, and risk management reporting and workflow system, which accommodates the entire healthcare delivery network.

[ACS Healthcare Solutions](#) provides hospitals, clinics, and medical practitioners around the world with information technology, clinical solutions and a full array of management services so healthcare providers can operate more efficiently and effectively using world-class consulting and outsourcing services. ACS helps its clients reduce costs, enhance revenue, increase productivity and improve patient care. This is one of four divisions focused on the healthcare market for ACS. The other three include ACS' government healthcare line of business which focuses on state and federal health programs such as Medicaid and Medicare, a healthcare payer group and an informational technology group.

About ACS
